

Toy Recommendations (Found on our Online Store or through Amazon)

Tux Treat Toy

This is a tough rubber toy that can be filled with peanut butter, beef/chicken broth, or your dog's favorite kind of treat. These are a great way to distract your pet when being left alone at home or in a kennel.

Try freezing it!

West Paw ZogoFlex Dog Toys

This line of toys provides different textures. These are tough rubber toys that will bring joy to your puppy during their teething phase. Try freezing it for comfort.

- Tizzi Toy
- Air Wox
- Bumi Tug
- Hurley Bone
- Zwig

Marrow Chew Bone

Great for puppies that want to chew. The marrow shell softens up as they chew and the beef flavor encourages chewing.

Zogoflex Toppl

Treat dispensing puzzle toy that will provide hours of fun. Can be filled with treats, peanut butter or something your pet really enjoys.

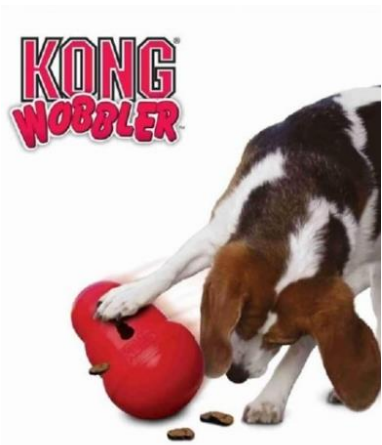

The soft rubber encourages chewing. Try freezing it for comfort for those that are teething.

Treat Ideas:

Combine the colors for more over the Toppl Fun!

Food Treat Dispensers

Fill these dispensers with your pets' favorite treats or food. Give your dog endless interaction and entertainment while they work for their meal. Great for pets with separation anxiety and boredom. These can easily be filled with your dog's kibble and they are easy to clean. For safety we recommend the radiopaque Kongs.

Kong Wobbler

Kong Tiltz

Buster Cube Treat Dispenser

Puzzle Mats

Puzzle mats bring mental stimulation to your dog. This helps with separation anxiety and boredom problems. Try feeding your pets their breakfast and supper, when you leave to provide distraction.

You can even try frozen peanut butter or canned food.

Outward hound by Nina Ottosson

Dog Tornado & Dog Brick

Tricia Flip Board

LickiMat

Smear canned food or peanut butter in the mat to feed to your pet while away. Helps with separation anxiety. We want your pet to know when being alone means good things happen. Try freezing it!
